PROFESSIONAL SUMMARY

Technical CX Specialist at Harvey, supporting users of its legal AI platform. Before this, five years in SaaS and enterprise application support (SAP, Oracle ERP, Infor M3 and a workplace giving platform): user issues, bug reproduction, root-cause analysis and escalation to engineering. Also a full-stack developer (Java, Spring Boot, React, TypeScript, AWS) with a live production platform I built and run. Looking to go deeper into technical work: support engineering, production support and software engineering. Australian Citizen.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript, TypeScript, SQL
- **Frontend:** React, HTML, CSS/SCSS
- **Backend:** Spring Boot, Node.js, Express, REST APIs
- **Databases:** MySQL, Firestore (Firebase)
- **Cloud:** AWS (Elastic Beanstalk, RDS, Amplify, Route 53), Render, Docker
- **Diagnostics & tools:** Browser dev tools, application logs, Postman, Git, GitHub, JUnit, Jest
- **Enterprise platforms supported:** SAP, Oracle ERP, Infor M3
- **CRM / ticketing tools used:** Salesforce, HubSpot, Zendesk

PROFESSIONAL EXPERIENCE

Technical CX Specialist · Harvey Sep 2026 – Present

- Technical support for Harvey's legal AI platform
- Investigate and resolve user issues, reproduce and document bugs, and escalate to product and engineering

Software Developer Trainee · _nology Nov 2025 – May 2026

- Full-time software engineering program: full-stack development, REST API design, TDD (JUnit) and agile practices
- Built the projects listed below using React, TypeScript, Java, Spring Boot, MySQL and Firebase

Reconciliations Officer · Good2Give 2022 – 2025

- Level 1 technical support for a workplace giving platform used by 100+ corporate clients and 3,000+ charities; around 1,000 cases a year
- Reproduced platform bugs and escalated them to engineering with clear steps, then tracked them through to resolution in Salesforce and HubSpot
- Investigated reconciliation discrepancies by tracing figures from pledge to verified donation, monthly invoice and combined payment, separating real bugs from data-timing effects
- Trained client payroll managers on the platform
- Worked through a legacy backlog of hundreds of unallocated payment lines dating back to 2015

Administrative Assistant · A. Raptis & Sons 2018 – 2021

- Invoicing, data entry and bank reconciliation in Infor M3 ERP and Excel
- Built document templates that made reporting faster and more accurate

International Flight Attendant · Aeroflot 2014 – 2018

- Customer service on international flights in a regulated, safety-critical environment

SAP Support Officer · TB INFORM 2013 – 2014

- Level 2 SAP support: user issues, workflow questions and escalations; wrote internal documentation to cut resolution time

ERP Support Administrator · Rostelecom 2012 – 2013

- Supported internal Oracle ERP users with training, onboarding and reports

PROJECTS

Jobs Platform: temp staffing management system · Full-stack 2026

React · TypeScript · Spring Boot · MySQL · JWT · CSRF · MCP · AWS

jobs.dinaratiumina.com

- Staffing platform with a management hierarchy, scoped permissions and date-range conflict prevention
- Spring Boot REST API with layered architecture, JWT auth in HTTP-only cookies and CSRF protection
- React + TypeScript frontend with filtering, sorting, pagination and structured error handling
- Custom MCP tool-routing layer that runs platform actions from natural-language commands, with tool contracts, confirmation flows and failure handling
- Deployed and run on AWS: API on Elastic Beanstalk, MySQL on RDS, frontend on Amplify, domain via Route 53

TaskFlow: team task management · Full-stack 2026

React · TypeScript · Spring Boot · MySQL · JWT

- Multi-tenant platform with teams, role-based memberships, team-scoped projects, tasks and comments
- JWT auth, validation-first service layer, activity logging for audit trails, paginated and filtered queries

Pawsonality Gear: e-commerce app · Full-stack 2025

React · Vite · Firebase · Stripe · Express · Render

dinara-t.github.io/Pawsonality-Gear

- Stripe Checkout, variant-based inventory and persistent cart; Firestore transactions keep stock accurate

EDUCATION & CERTIFICATIONS

- _nology: Full Stack Software Development Program (2026)
- IBM Front-End Developer Certification, Coursera (2025)
- Master of Information Technology (Interactive Media), University of Technology Sydney (2021)
- Bachelor of Applied Information Systems, Saratov State Technical University (2012)
